

The SASP in action

29 February 2024:

The North Gauteng NMSPG committee has sponsored the University of Pretoria with 30 mulligan belts, as their social responsibility project. The University sent a request last year asking for sponsorship of Mulligan belts, as they need them for teaching of undergraduate Physiotherapy students. Through member voting, the committee managed to honor that request.

On the 29th of February 2024, the North Gauteng NMSPG chair (Muhle Komati), went to the university to hand over the belts.
