

Anita Errens - Biography

BSc Physiotherapy (Stellenbosch)

I qualified as a Physiotherapist in 1983 from Stellenbosch University and went on to work for 5 years in the public health service at Tygerberg and Grootte Schuur Hospitals. I have run private practices in various parts of Cape Town: Panorama Hospital, Rondebosch and currently in Hout Bay. Although I have a broad range of interests in physiotherapy my focus moved to NMS work and it was through this interest that I worked in the Insurance Industry (Employee Benefits) for a number of years as physiotherapy consultant for NMS injuries. It was while doing this work that my interest in Medico-legal work was truly ignited. Since 2009, I have been working in association with Moira van Oordt doing only medico-legal work and to date that is my prime focus of practice alongside my clinical work.

I have also lectured and served on various SASP committees. Currently I'm an active committee member of SAMLA WC (South African Medico-Legal Association)
